The perfect solution for those, who dream of having their own affordable home on the water

SL Houseboat Budget Bay Inclusief Ligplaats

The perfect solution for those, who dream of having their own affordable home on the water. The hull houseboat combines quality, durability and style. You have the freedom to design your floating home as you wish.

Each "Budget Bay" houseboat is wind and watertight and is built with a strong steel frame and 6 cm thick sandwich panels.

This solid foundation ensures a durable and safe living experience on the water.

Choice of a palette of 4 wood-look and 10 other modern color options.

The option to insulate the interior as you see fit provides excellent temperature control options. This makes the Houseboat ideal for summer and winter occupancy.

The Houseboat is equipped with quality plastic windows, doors and frames, all double-glazed. This increases energy efficiency and contributes to comfort on board.

Stability is ensured by a robust pontoon with 3 floats, providing a safe, reliable base.

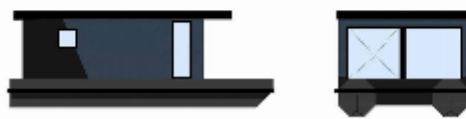

All wishes are negotiable and can be custom (in)built.
