Year

1973

Bijlsma Vlet 930 GS/OK

This sturdy and beautifully lined vlet is well maintained and offers many luxury and comfort. In 2013 she will be fully and professionally painted (2K) and in 2019 new anodes will be installed and the underwater hull will be fitted with new antifouling. The engine was rebuilt in 1998 and has only 1800 running hours. In addition, a lot of attention was paid to isolating the dry exhaust and the engine compartment. The dry exhaust combined with bun-cooling gives you the possibility to sail the whole winter period. The very complete equipment includes a bow thruster, solar panel, inverter, boiler, heating, marine telephone and very recent compressor refrigerator.

Basic Information
