Very well maintained and equipped ship.

Hooveld 10.80 AK

A ship to get through a ring! The ship is equipped with a 2-component paint system that has been applied professionally and without making concessions. The entire hull is sandblasted and coated and the windows + all the fittings of the superstructure are removed during the paint job. This Hooveld is characterized by a generous headroom of 195 cm both in the saloon and the kitchen and particularly many berths. In addition, she is very richly equipped with, among other things: Stainless steel railing + deck fittings, solar panels mounted on a folding stainless steel frame, boiler on 220v + motor heat, Victron inverter, Webasto heater, plastic waste water tank with deck extractor + pump, a deck wash pump and a bow + stern thruster. Highly recommended for those who are looking for a generously equipped and fantastically maintained ship. Interior pictures will follow soon.
