Polaris 10.50

Arrived last weekend! This Polaris will positively surprise you when you see her in the flesh, a fine example of a vessel that has been maintained and cared for with love and attention to detail. The 2020 paint job makes the little ship shine and the many recent renewals and upgrades leave little to be desired. For example, the engine was replaced in 2008 with a 5 cylinder Volkswagen Marine 75 hp with now only 1235 hours, also the Eberspächer heater was installed this year and the batteries and refrigerator were renewed in 2020. Options such as a bow thruster, boiler, solar panel and inverter are also not lacking, so in all respects we can say that this is an entry-level ship.
