This Polaris Manta has been very thoroughly serviced in recent years both technically and optically.

Polaris Manta

We can safely say that we may have one of the most beautiful Polaris Mantas on our sales dock, but we would rather you come and see for yourself. No expense has been spared to get this Polaris in this condition, because she did not come from the shipyard looking like this. The owner has carried out numerous renewals and upgrades which makes this ship 'of this time' and can provide many years of sailing pleasure. The ship was completely painted outside in 2010, including the windows and was then completely put in 2-component DD paint and because this ship lies inside every winter she still looks great. Also on the inside many adjustments have been made, for example the engine has been replaced by a Volvo Penta TMD 22 with 78 hp and only 1104 hours. Simultaneously, the propeller shaft, propeller shaft seal and the gearbox were renewed and a 4-blade propeller was mounted, which ensures efficient and vibration-free sailing. Electrically, there is a bow thruster (including remote control) mounted, a 1600W Victron inverter and 5 batteries. This ship is definitely worth a visit and will not disappoint.
