## **Grandezza 37 CA**

On the west coast of Finland located on Gulf of Bothnia, these Scandinavian quality vessels have been built for almost 20 years. Beautiful design, very ingenious details and true craftsmanship characterize the Grandezza brand. This Grandezza 37 CA is indistinguishable from new and has only 235 operating hours, the owner has spared no expense to keep her in top condition. The large swim platform is equipped with extra bollards and along with the cockpit is equipped with teak. On the way to the large sundeck on the foredeck, you walk along wide gangways that together with the high railing feel comfortable and safe. The generous window area combined with the large transparent sliding roof create an interior flooded with light, even a wicket door next to the driver has been considered. The two engines are located at the rear of the ship which not only creates a lot of extra interior space, but also makes the noise level while sailing very low. A very interesting ship that makes a visit to Finland worthwhile!
