A neat and well-equipped Excellent 900 OK

Excellent 900 OK

New to our sales platform! A neat Excellent 900 with spacious open cockpit. These ships are characterized by the pleasant experience of space, among other things. Because of the width, high hull and above average headroom is this a real space miracle where not many ships of the same length can match. In 2019 a thorough refit took place which included painting the entire ship, installing a beautiful stainless steel railing, replacing the tanks with plastic ones and making a stainless steel tube frame for the new spray hood. This spray hood still looks beautiful and is also equipped with zippered fly screens. During the paint job the windows were all removed and the aluminum window profiles were fitted with new rubbers and new locks. No lack of power, the rock solid 6 cylinder DAF 475 runs wonderfully quiet and will bring the ship up to hull speed at low rpm. Additional specifications and exterior photographs will follow soon.
