Year

2015

A very spacious, stable sloop with a favorable hull speed.

STOUT 750

New in and immediately available, a beautiful and very complete STOUT 750 including double axle Pega trailer. That the STOUT 750 is derived from the old lifeboats can be seen at a glance and when you step on board the feeling of safety is immediately confirmed. The high hull makes it the ideal boat for larger waters or for a company with children on board. Characteristic of the STOUT 750 are the excellent sailing characteristics, so the hull shape makes this ship very stable and steady even at low speeds. Maneuvering is done with great ease by the presence of a large rudder blade and the presence of a powerful bow thruster. On the inside you will find a lot of comfortable seating and a huge sun deck. Under the benches is plenty of storage space and under the table in front of the steering position is a refrigerator mounted. This STOUT is equipped with options such as a teak deck in the cockpit, a second battery, a complete spray hood including tarpaulin, a large sun deck, 'Diamante' upholstery including back cushions and 4 STOUT seats, cockpit lighting and 2 12-volt plugs, stainless steel boarding ladder and stainless steel flagpole, an extra fuel tank, a depth gauge and a Jensen sound system. This STOUT 750 comes with an approved double axle PEGA trailer with centering system and electric winch so that trips outside the region are child's play. This boat is still regularly used by the owner, so please contact us in advance, so we can plan an appointment for a viewing.

Basic Information

General	
Boat Name	Bikkel
