8.05 m x 2.96 m x 0.88 m

Material

Grp (polyester)

Motor

Vetus / Mitsubishi 32 hp.

Berth

Year

1995

For "only" 8 meters, this ship is extremely generously equipped.

Grommer 800

With the Grommer 800, shipyard De Wijde Blick has succeeded in building a very practical boat with a length of "only" 8 meters, which feels very spacious. The small dimensions and very favorable clearance height of 225 cm ensure a large sailing area. On board you will find everything you need for your trip, including a 2000W inverter, 2 solar panels, a boiler on engine heat + 220V, a Webasto hot air heater, an outdoor shower in the cockpit and a recently installed cockpit tent with blackout. In addition, this ship has a bow thruster, electric anchor winch, 2 VHF radios, AIS, and a hydraulic steering system equipped with a remote control that also allows you to steer the ship from the open cockpit. All in all a very versatile ship suitable for almost all Dutch waters.
