Year

1978

Very high quality built ship from the Holterman shipyard.

Blauwe Hand Kruiser 14.00 AK

This Blue Hand Cruiser, built by Holterman & De Vries, exudes luxury and solidity as soon as you step aboard. The boat is heavy and extremely solidly built and has an interior that stands out from many of its contemporaries. Numerous drawers and cupboards, many round shapes and the right proportions characterize the construction by an excellent shipyard and that is exactly what you will find in this ship. These features provide a good foundation for a vessel used for long-term or permanent living. In the last 2 years many innovations have been done such as the installation of a Kabola 400 HR combi, a 3500 kWh roof air conditioner, new mattresses and also the gas installation has been removed and replaced by a 1 phase Siemens electric stove. An inverter, a generator and a large battery pack are not missing either, of course. In 2021 the antifouling and anodes were replaced and at the same time the grease cords were renewed and all standpipes were replaced by skin penetrations with ball valves. In the bilge you will find two electric bilge pumps and both in the bow and stern high water alarms have been installed. In the orderly engine room you will find two excellently maintained Ford Lehman engines of 120 hp each equipped with bun cooling. The exhausts have been renewed and made water-cooled. This ship is ready to board and offers you a lot of comfort during long trips or living. Now at our sales jetty, so make an appointment for a viewing soon.

Basic Information

General
