Material

Steel

Motor

DAF 575, keel cooling, dry exhaust.

Berth

Year

1997

Particularly sturdy vessel, ideally suited for long trips or permanent residence.

Tukkervlet 14.90

The abbreviation "BT" needs no explanation for lovers of exceptionally solid and well thought-out ships. At Botenbouw Tukker they know what is relevant for a ship that is really used for its intended purpose and those who visit this ship feel this immediately at the first step they take on board. A hull of 8 mm thick steel plate and a superstructure of only a few millimeters less are rare and can rightly be called exceptional. Walking through the ship it is noticeable that in addition to a very thick insulation, thermopane glazing has also been used, also good account has been taken of the placement of doors and folding and sliding windows for the necessary ventilation. The salon is a wonderfully spacious living space that is flooded with light and at the same time warm and homely. The comfortable L-shaped sofa is large enough to serve as a bed for two guests. In the stern you will find the cozy and practical galley with a door on the port side giving access to the engine room. In the bow you will find the toilet on the port side and in the bow a French bed with an ensuite bathroom. The forward cabin is equipped with a removable air conditioner that keeps the bedroom wonderfully cool even in the most extreme situations. The equipment level of this boat is very complete, so in addition to a bow + stern thruster you will also find a 380V anchor winch, Kabola CV, a 10 kVA generator with bun cooling, 5000W Victron inverter, deck wash pump and a diesel tank with a capacity of 3500 liters and a galvanized water tank of 2500 liters. Are you as enthusiastic as we are, then we would like to make an appointment for a viewing. As in previous years, the owner is on his way to southern France with this ship and will be happy to receive you along the way.

Basic Information
