Grp (polyester)

Motor

No motor. Delivery and installation of any desired motor possible.

Berth

Year

1991

Timeless design and old-fashioned solidity, and true classic!

Arriva 2452

For many, the timeless lines of the Arriva 2452 are characteristic of the classic speedboat. This model line is built with a clear goal: quality, speed and good sailing characteristics for an affordable price and it has succeeded. This Arriva is offered including trailer and without drive, but can be delivered with any engine + sterndrive upon request. Pictured tandem axle trailer is in November 2023 with new brake linings, brake cables and 3500 kg overrun brake. A new waterproof LED lighting set is included. At extra cost, this lighting set can be mounted and the trailer can be provided with a 3500 kg license plate. After years of standing in a heated garage without using her, the owner has decided that it was time for a new owner who will breathe new life into this classic and enjoy it to the fullest.
