This vessel is the ideal candidate for a longer stay on board or living. Features include double glazing and a Kabola Central heating system.

## Van Der Heijden 1500 Elegance VS

This ship is the ideal candidate for a longer stay on board or for living. Because she is equipped with double glazing and a Kabola central heating system it is pleasant to stay even at temperatures below zero. Equipped with a bow and stern thruster, autopilot, inverter, 10 kW generator, washer, dryer, dishwasher, electric stove and a robust 196 hp Vetus Deutz. The fixed wheelhouse offers excellent all-round visibility, and with the French doors to the aft deck, these two spaces blend seamlessly. The salon is spacious and bright and offers excellent outside views even while seated. Two windows have moisture between the double-glazing, but a recent quote for replacement of these is ready. The dinette is spacious and adjacent directly to the kitchen. The forward cabin has a guest cabin with two beds, which can be closed into one large V-bed and has its own electric toilet. The owner's cabin in the stern is generously proportioned and, like the rest of the ship, has excellent headroom, adjacent you will find a large ensuite bathroom with walk-in shower and electric toilet. The teak deck all around gives the ship a luxurious appearance, but may be once sanded and locally provided with a sealant seam. Currently very interestingly priced, so for those who want to roll up their sleeves, this is a great opportunity!

## Basic Information
