4 fixed sleeping places, 2 extra can be created

Vripack Spiegelkotter 11.50 AK

With this Vripack 11.50 AK you might want to pause a little longer. What looks like a 'standard' Vripack 11.50, turns out to be different when you enter this ship. The interior of this ship is of a high standard and the layout has been thought out down to the last centimeter, with no savings on storage space. An example for modern shipbuilding and certainly progressive for a ship that is 22 years young! This lady is fully equipped with, among other things, a bow + stern thruster, inverter, solar panels, deck wash pump, 60 liter boiler on 220V + engine heat, 5Kw Webasto hot air heating, a 450 liter waste water tank and a reliable and silent Vetus Deutz. With a weight of 16,000 kg, the construction is solid and robust & combined with the high stainless steel sea railing, wide gangways and a multi-chine underwater hull, this contributes to a stable and safe feeling. In short, a wonderful ship for longer stays and long journeys, also when you want to choose the wider sea.
