On Sales Premises

Year

1991

A very spacious ship with a practical layout.

Anker Trawler 12.50 AK

The timeless lines, exceptionally generous + practical interior space and also generous equipment make this Anker Trawler your ideal ally for all your future journeys. The list of adjustments and innovations is long and although there is of course always something to be desired, we think that the current owner has tackled the right things. A selection of the upgrades that have been carried out: In 2019, the electrical system was adjusted, with 2 solar panels installed, 6 batteries replaced, a Victron inverter/charger + 60 ltr. boiler installed and the wiring to the dashboard was adjusted and partly renewed. In the same year, the geyser was removed and a new gas hob was installed, and the gas system was also equipped with a safety valve. The interior has not been neglected either, because the floors are fitted with high-quality vinyl, a new smart TV with speaker system and TV lift has been installed, LED lighting has been installed and finally a new energy-efficient compressor refrigerator has been installed. In 2020, an automatic lubrication system was installed and the water pump + pressure vessel were renewed. In 2022, the inside steering position was removed by a professional ship's carpenter and the outside steering position was renovated. The instruments were renewed, a Simrad navigation system was installed and a Bluetooth audio system, the same year the curtains throughout the ship were also renewed and the swimming platform was renovated. In 2023, the aft deck was fitted with a new spray hood with side walls, which was stored at home during the winter because the old hood can serve as a 'winter hood'. Finally, a new bow thruster was installed in 2024 and the hull and superstructure were professionally polished. All in all, a whole list of innovations and upgrades that you can enjoy for many years to come. Now available for viewing at our sales jetty, so please contact us to make an appointment for a viewing.
