Euroship 1900 Pilothouse

‘ViDiFa’ – Timeless Dutch Craftsmanship, Built for Adventure and Comfort

Discover ‘ViDiFa’, a superbly constructed Euroship 19.00 Pilothouse that embodies the finest in Dutch shipbuilding tradition. Certified in CE category 'B' and recently awarded a new CVO certificate, this vessel offers outstanding quality, durability, and comfort—ideal for extended cruising or luxurious liveaboard life.

Built with precision from 6mm thick steel throughout the hull, and equipped with two spud poles, flat-plate cooling for both engines and generator, and a professionally installed technical system, ‘ViDiFa’ is designed to perform reliably under a wide range of conditions.

The spacious aft deck, accessible via the swim platform and broad spiral staircases, flows seamlessly into the wheelhouse through four-part folding doors—creating a single, open living area. A classic flared bow and high freeboard lend the ship a refined and timeless appearance, complemented by wide gangways and continuous stainless-steel handrails for safe and easy passage.

Inside, the wheelhouse offers excellent visibility and comfort for both skipper and guests. The open connection to the saloon enhances the sense of space and light.

This vessel is fully equipped for long-term stays, featuring:

Underfloor heating throughout

Integrated air conditioning

Double-glazed windows

11 kW generator, 3000W inverter, and 720W solar panels

Central vacuum system

Washing machine and dryer

Multiple spacious living areas

Launched in 2011 following a meticulous build process closely overseen by the first and current owner, ‘ViDiFa’ has been maintained to the highest standards ever since—no effort or investment has been spared.

Interested in viewing ‘ViDiFa’?

Please contact us to schedule a private tour or to request additional information. We would be delighted to assist you.

Basic Information

General
