Nicols Sixto Prestige

179.500 VAT included

Motor Yacht

Price

€ 179.500 (VAT included)

Dimensions

13.5 m x 3.8 m x 0.85 m

Material

grp (polyester)

Motor

Nannie N4.85, 85 pk

Berth

On Sales Premises

Year

2013

Nicols Sixto Prestige

This Nicols Sixto left the shipyard as a "Prestige" model, which stands for extra luxury and comfort. For example, this vessel features an exceptionally spacious owner's cabin in the bow and is equipped with high-quality options, including a dishwasher, a generously sized inverter, a satellite dish, and powerful and efficient engines.

The ship has only known two private owners, both of whom have cared for it with great care and love. The current owner, originally from New Zealand, has used the Netherlands for years as a base for long voyages throughout Europe. In recent years, several valuable upgrades have also been made to make life on board even more comfortable. These include:

- 4 large solar panels
- a powerful diesel hot air heater to replace the gas heater
- a fixed original canopy on the aft deck
- a washing machine

The hull has also been professionally painted and the bow seat has been converted into lockable storage space.

As you would expect from Nicols, this vessel combines versatility with a clever layout. The spacious open cockpit is easily accessible from three sides and seamlessly connects to the saloon via a sliding glass door. Thanks to the large windows, the saloon is bright and airy, with panoramic views all around. Just two steps separate the saloon from the bow, where you'll find a guest cabin, a shared head, and the exceptionally spacious captain's cabin.

A unique feature is the combination of a polyester flybridge vessel with a single, perfectly balanced, fuel-efficient engine. This makes this Nicols Sixto Prestige not only stylish but also easy to maintain and efficient in use.

Are you looking for a comfortable, versatile, and low-maintenance boat with excellent sailing characteristics? Then this Nicols Sixto Prestige is definitely worth a visit. As every year, the boat spends the winter in heated storage. We'd be happy to schedule a viewing.

Basic Information
