grp (polyester)

Motor

Honda 100 hp, 226 hours.

Berth

On Sales Premises

Year

2022

Only 226 hours old and 3 seasons old, and currently selling for a very attractive price, so grab your chance now before she goes into winter storage.

Van Zutphen 633 Tender

We proudly present this beautiful tender, equipped with a top-of-the-line engine, at a fantastic price! This owner wanted top quality and therefore chose a Van Zutphen 633 Tender. In terms of equipment, nothing was to be desired, so the options list was eagerly checked, resulting in this tender featuring a high-quality 100hp Honda engine, dual switchable built-in tanks, a bow thruster, synthetic teak throughout the boat and on the swim platform, a stainless steel swim ladder, diamond-pattern upholstery stitching with a separate cup holder, a sprayhood with a sloping harbor cover, and a sprayhood extension with fly screens, providing extra comfort when sleeping on board.

The forepeak features a folding teak table and can be completely closed to serve as a sunbed. The helm station is generously equipped with a speedometer, tachometer, voltmeter, trim gauge, and a fuel gauge for each tank. Behind the helm are two fixed deck filler caps for the two fuel tanks and a permanently installed, highly certified boat lock. These are neatly concealed under the second sunbed, which is located above the engine.

The moment we stepped aboard, it was clear that this wasn't a standard tender. The entry step features an extra step, and this Van Zutphen Tender is exceptionally stable. We were thrilled when we started the engine, as the quality, reliability, and smoothness of Honda outboard motors are unparalleled. The choice of the most luxurious engine configuration makes this Van Zutphen 633 a highly versatile tender, perfect for both leisurely day trips with friends and active days out with children and grandchildren. Only 226 hours old and three seasons old, it's currently at a very attractive price, so seize this opportunity before she goes into winter storage.
