On Sales Premises

Year

1996

A well-maintained and very solidly built sloop with exceptionally generous standing heights and bed sizes.

Multivlet 11.80 AK

Step aboard this Multivlet 11.80 AK and be amazed by its spaciousness and well-maintained condition. The exceptional dimensions, rarely seen on a ship of this vintage, are immediately striking. The saloon offers a standing height of over 195 centimeters, while the forepeak measures 190 centimeters and the aft 185 centimeters. The beds are also remarkably spacious, at least two meters long, and the guest cabin also features a private head. The entire structure exudes the vision of a progressive shipyard.

Comfort is certainly not lacking. A wastewater tank, a boiler that runs on both 220 volts and engine heat, hot-air heating, indoor and outdoor showers, and a bow thruster replaced in 2024 offer every comfort. In 2025, the hull was professionally painted with a two-component paint system, the antifouling and teak sections of the swimming platform were renewed, and the horizontal parts of the superstructure were repainted. The sprayhood, bimini, and ramp covers were also professionally cleaned and impregnated. The teak deck is in excellent condition, thanks in part to its annual wintering in covered storage.

Curious? Then make an appointment now and visit this ship in winter storage.

Basic Information

General	
Boat Name	Myosotis 3
Where	Van der Werf, Doesburg
