2000

A beautiful and timeless design by Vripack Yacht Design, combined with the high-quality construction of Silverline Yachts.

Silverline Millennium 13.50 OK

The Silverline Millennium 13.50 OK is characterized by its solid construction, comfortable handling characteristics, and high-quality finish. This Silverline series is known for its practical layout, spacious accommodation, and excellent suitability for longer trips and a comfortable stay on board.

The ship is powered by a reliable and economical Perkins 6-cylinder 135 hp diesel engine and is equipped with an inside and outside helm station. Thanks to the presence of both a bow thruster and a stern thruster, maneuvering is easy and familiar.

This Silverline is fully equipped and features, among other things, a Mastervolt generator, inverter, double glazing, and Kabola central heating, ensuring a comfortable stay on board even during longer stays and in the shoulder seasons. Naturally, practical amenities such as a washing machine, electric hob, autopilot, and an electric anchor winch are also included.

The vessel features a cork finish on the swimming platform and the surrounding walkways. The spacious open cockpit is fitted with a beautiful teak deck. The ship was recently professionally painted throughout, and various upgrades were carried out, including a new cockpit tent, new upholstery, new curtains, and new carpeting in the saloon.

The combination of a vessel designed by Vripack and built by Silverline Yachts results in a beautifully lined round-chine transom cutter that exudes quality and solidity. The many highly polished stainless steel accents are characteristic of the passion and eye for detail of this Dutch builder.
