2001

A particularly solidly built ship, neatly maintained, from the first owner!

Stevens Nautical Columbus Spiegelkotter 10.50 AK

This beautifully lined and high-quality built Columbus transom cutter, built by Stevens Nautical, has arrived in our sales marina.

Immediately upon stepping aboard, it becomes clear that this vessel was built by passionate craftsmen and maintained by owners with love for their ship. The solid construction ensures an exceptionally stable and sure-footed vessel. Wide side decks, a spacious aft deck, and fine details such as recessed windows, various stainless steel accents, and even a retractable swimming platform complete the picture.

The bimini, which covers the entire aft deck, was installed in 2020 and is equipped with zippers that allow plastic windows to be mounted at the front. It is also possible to install a sun or wind screen on the port or starboard side.

The interior of the ship is solidly paneled with an eye for detail. Thanks in part to the large circular seating area and the many windows, a spacious and bright living space is created.

Propulsion is provided by an 80 hp Iveco four-cylinder diesel engine, equipped with closed cooling, an oil-bath lubricated propeller shaft, and a four-bladed propeller. This combination ensures reliable and efficient propulsion, allowing you to sail all year round on both open water and smaller canals.

Are you just as enthusiastic as we are? Then we would like to invite you to come and see and experience this beautiful ship with your own eyes.

Basic Information

General	
Boat Name	Passion
Where	Stevens Nautical
